Town House Semi-detached For Renovation

Floor area - 250 m

6 bedrooms

Total Rooms - 10 rooms

Water ✓ Electricity ✓ Telephone ✗

Description

If you are looking for that something special here it is and built on 3 floors. The ground floor was once a Mill though now set up as rooms and the two upper floors once comprised the House itself.

In need of restoration this House could give you a wonderful home with Letting potential if you so wished. There are almost too many wonderful features the best of which must be the Doors and Windows which are fine examples of traditional design and construction.

200,000 Euros
